FOR A CROWN RESERVE (THE ROOKWOOD
NECROPOLIS) UNDER PART 5 DIVISION 6 OF
THE CROWN LANDS ACT 1989 AND CROWN
LANDS REGULATION 2006**

THE 1993 Rookwood Necropolis Plan of Management (PoM) was altered in 2003 by the inclusion as an annexure (Volume VIII) thereto the 2002 Rookwood Necropolis Property Management Plan prepared pursuant to the provisions of the Threatened Species Conservation Act 1995, for the protection of high conservation value native vegetation located within the cemetery.

To allow for the continued burial of persons of the Islamic faith the 2002 Rookwood Necropolis Property Management Plan (PMP) has been amended by the withdrawal of "Area 4" as a conservation area from that plan. To this end the PoM is now proposed to be altered by the inclusion as Volume VIII the amended version of the PMP dated July 2008 in lieu of the August 2002 edition.

Inspection of the PoM and the July 2008 amended version of the PMP can be made at the office of the Joint Committee of Necropolis Trustees, cnr Hawthorne and Field Avenues, Rookwood, and the Sydney Regional Office of the Department of Lands, Level 12, 10 Valentine Avenue, Parramatta, during normal business hours.

Submissions will be received up until Tuesday, 2 September 2008 and should be forwarded to the Regional Manager, Sydney Region (Attention Brian Hugo), PO Box 3935, Parramatta NSW 2124.

STATE OWNED CORPORATIONS ACT 1989

Direction to the Board of Hunter Water Corporation under Section 20P

Notice of Reasons for giving the Direction

I am satisfied that there are exceptional circumstances that render it necessary to give this direction in the public interest.

Increases in projected population growth in the Hunter and the Central Coast, the current drought, and extremely low water storage levels on the Central Coast mean that the accelerated action is required to deliver secure and sustainable water supplies.

The new 450 billion litre Tillegra Dam will assist in the provision of a secure and sustainable water supply and will improve the long term drought security of the Lower Hunter and Central Coast. The Tillegra Dam will require a lead time of up to 10 years to build and fill. However, water is anticipated to be available from the dam by 2013. On the basis of average rainfall estimates, the dam would take 5 years to fill. Commencement of construction of the Tillegra Dam is called for in the public interest.

The Kooragang Island recycling project will have the capacity to replace up to 3 billion litres of potable water with highly treated effluent for use by major industrial customers around Newcastle Harbour.

The payment of the subsidy for the Kooragang Island recycling project will enable the price of recycled water to be set at levels competitive with the price of potable water, which is set by the Independent Pricing and Regulatory Tribunal.

Public benefits in allowing the Kooragang Island recycling project to proceed include an increase in the supply of potable water that is available for Hunter Water and Central Coast customers in the medium term and its establishment will promote and encourage the use of recycled water generally.

This direction will ensure that the people of the Lower Hunter and Central Coast can look forward to secure and
